

Christopher G. Schreiber
Vice President, New Business
Development and Market Research

Chris joined Alenia North America in 2005 following a career with the United States Navy.

In his previous job, Chris oversaw new business development activities in the Navy International Program Office. His portfolio included naval aircraft and missile systems. He also served as the Naval Attaché in Kiev, Ukraine.

Chris is an experienced rotary and fixed wing pilot with over 4500 total flight hours. He is a specialist in flight simulation for training purposes and aircraft maintenance and repair operations. He is also a skilled helicopter and fixed wing flight instructor. Chris entered the Navy and was designated a naval aviator in January 1985.

Born December 26, 1960, in Frankfurt, Germany, Chris was raised in Port Washington, New York. He received a degree in Computer Science, a US Coast Guard Third Mate's License and a USNR Commission from the State University of New York's Maritime College in May of 1983. In 2000, he earned a Masters Degree in Instructional Systems Design from the George Washington University. Chris is married and has two sons. He is conversant in German and Russian.
